Pneumatic Control Fundamentals

NECC is sponsoring a two-day ***HANDS-ON*** workshop covering all of the basic procedures for set up, calibration and trouble-shooting pneumatic control systems. Interfacing pneumatic and electronic systems will be discussed.

The instructor, Mark McGann, is the V.P./General Manager of NECC, and has been presenting pneumatic training for many years. He is also Past National President of the National Association of Power Engineers. Mark's base of knowledge and his easy style of presentation coupled with the ***hands-on class*** activities will make the class informative and enjoyable.

Attendees will learn:

- Air Station Maintenance
- Valves
- Thermostats and Transmitters
- Switching, Diverting and Selector Relays
- Set Up and Calibrate Receiver/Controllers

Cost: $595.00 per student (must be paid in advance**)**
(Workbooks, lunch & breaks provided)

Place: **Clarion Hotel Philadelphia Int'l Airport**
76 Industrial Highway
Essington, PA 19029

Dates: September 29-30, 2014
