

## 6" and 8" Dial Pressure Gauges

These handy, easy-to-read gauges are perfect where the gauge is mounted at a distance or where you want scale markings that are easy to read. The standard case is a heavy gauge aluminum with a threaded cover ring. 1/4" MPT brass connection standard.

## 6" and 8" Altitude Gauges

These gauges have a dual scale which reads PSI and Feet of Water. These are particularly useful for measuring the height of water in heating systems, tanks, standpipes, etc.

ORDERING INFORMATION

## Tridicator Gauges

Specially designed for hot water heating systems, these combination temperature/pressure/altitude gauges measure pressure in PSI, 70-250°F temperature, and altitude in Feet of Water Column.
