Q539A1014	Cool-Off-Heat	—
Q539A1147	Cool-Off-Heat	Independent Heat/Cool Circuits
Q539C1020	Cool-Off	Cooling Only
Q539J1006	Cool-Off-Heat	Auto Fan on Heat and Cool (<i>electric heat</i>)

Dummy Thermostat

For those dummies in the office or apartment who insist on diddling with a thermostat, give them one to play with! For quick installation, stick it on with double-faced carpet tape.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
DMY999	Dummy stat

NOTE: For extra fun, put a clear locking guard over the thermostat and watch as they fish paper clips and pencils down between the slots to adjust it!

Very Low Voltage Heating Thermostat

Special gold plated contacts make it ideal for switching automation (millivolt, 0-24Vdc) signals.

Features:

- Not position sensitive
- No mercury
- Positive OFF switch
- SPST snap-acting switch
- Budget price
