

### Encapsulated Multivoltage Control Relay

The 2363-010 Relay is an encapsulated multivoltage device providing 10.0 amp SPDT contacts. The relay may be energized by one of the three input voltages: 24Vdc, 24Vac and 115Vac.

**Features:**

- Universal Mounting
- Multivoltage
- 12" Leads
- 10 Amp Contract Rating

**Applications:**

- HVAC Service
- DDC Interfacing
- Fire Alarm Systems
- Security Systems

### IDEC Midget Relays

These 10 amp miniature size IDEC relays allow for compact system design in energy management and general purpose use. Available in SPDT, DPDT, 3PDT and 4PDT designs. The blade type mount plugs in to the socket base, which is ordered separately. Available with or without indicator light, which illuminates when relay is energized.

Relay

Socket

39" DIN Rail
