Shaw-Perkins Security Guards

Heavy gauge (16ga) steel for thermostats and smoke detectors. Prevents damage to the thermostats due to vandalism by students, patients, inmates.

1. Provides full gravity air flow but prevents thermostat reading by casual observer.
2. Ease of installation—can be installed without removing the thermostat from wall.
3. Eliminates repair and replacement cost due to vandalism.
4. Proven reliability in major penal institutions and schools throughout the United States.

Important: Strength of final installation requires heavy solid anchoring.

Thermostat Guard

Smoke Detector Guard
