

Disposable Inline Filters

With the new mini stats and their tiny orifices, the cleanliness of existing branch lines are seriously in doubt. To be sure whenever you make any modifications, install an inline filter to protect the devices from clogging prematurely.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
DF114	Disposable Inline Filter

- 1/4" barb connection
- 56 SCFH @ 25 psi max.

Miniature Pressure Regulators

- Compact and easy to use
- For testing, emergencies, or branch backup
- 1/8" gauge ports both front and back

ORDERING INFORMATION		
ORDER #	SIZE	DESCRIPTION
REG118	1/8"	5-125 psi Miniature Pressure Regulator
REG114	1/4"	
PG18B030	1-1/2" 0-30#	Pressure Gauge

NOTE: Please order gauges separately.
See our **GAUGE** section for ordering information.

Precision Pressure Regulators

For Precise, Accurate Control

- 0.1 psi control
- Good calibration tool
- Fine-tune signals

ORDERING INFORMATION	
ORDER #	DESCRIPTION
PPR114	Precision Pressure Regulator

NOTE: Please order gauges separately.
See our **GAUGE** section for ordering information.

- 1/4" FPT connection
- 0-60 psi range

Standard Pressure Regulators

- For main air pressure
- Secondary air for day/night, summer/winter, or occupied/unoccupied
- 1/4" gauge ports front and back

ORDERING INFORMATION		
ORDER #	SIZE	DESCRIPTION
PRS114	1/4"	Pressure Regulator
PRS138	3/8"	
PRS112	1/2"	

- 5-125 psi range

Miniature Pop Safety Valves

A pressure regulator failure can blow out all the controls in your system. Install pressure relief valves in your mains for protection. Non-adjustable—factory set at 30 psi. ASME rated.

ORDERING INFORMATION		
ORDER #	SIZE	CAPACITY
PSV114	1/4"	50 SCFM*
PSV138	3/8"	

* Rating based on full release of tank pressure at 75#.

Tank Relief Valves

- Get maximum safety for compressor tank over-pressure
- Adjustable 5-300 psi relief setting

ORDERING INFORMATION		
ORDER #	SIZE	DESCRIPTION
CRV114	1/4"	Side Outlet Relief Valve
CRV138	3/8"
