

EP101

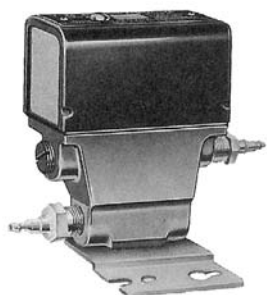

EP102

Electric-Pneumatic Relays: Plastic

The EP101 series is a plastic 3-way valve with molded barbed connections for 1/4" pneumatic tubing. They can be wall or panel mounted. Lighter and more compact than our EP201 series. Ports are marked 1-2-3. Flow is 600 SCIM at 20psi. The Pneuline models are an **exact substitute** for the brands on this selection chart:

PNEUMATIC RELAY CROSS-REFERENCE CHART				
Pneuline	Honeywell	Barber-Colman	Landis & Gyr Powers

Electric-Pneumatic Relay: Metal

Change branch or main signals from one source or pressure to another with this compact, 3-way diverting solenoid valve. Ideal for occupied-unoccupied, outdoor changeover, summer-winter or many other uses.

The EP201 is a cast metal valve with 1/8" NPT ports marked N.O., N.C., and common. Includes two barbed fittings for either 1/4" or 5/32" pneumatic tube. The Pneuline models are an **exact substitute** for the devices in this selection chart:
