

30 amp 2-pole Contactors

Used in loads such as compressors, blowers, or for switching electric resistance heaters. It has both quick connect and screw terminals.

ORDERING INFORMATION	
ORDER #	COIL
DP2030A5012	24V
DP2030B5011	120V
DP2030C5010	208/240V
DP2030D5019	277V

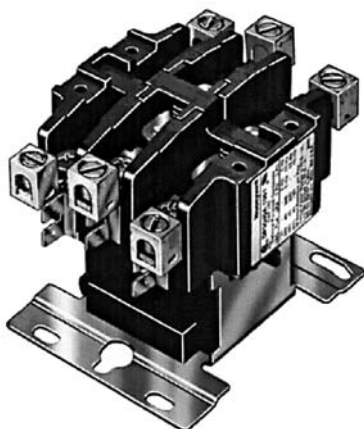

3-pole 30, 40, 50 amp Contactors

Definite purpose contactors for switching motors and heating loads in heating and cooling control applications.

The models on the chart are all 3-pole
The 4-pole model, not shown, is also available from stock in all voltages.

ORDERING INFORMATION		
ORDER #	COIL	AMPS
DP3030B5002	120V	30
DP3030C5001	208/240V	
DP3030A5003	24V	
DP3040B5001	120V	40
DP3040C5000	208/240V	
DP3040A5002	24V	
DP3050B5000	120V	50
DP3050C5009	208/240V	
DP3050A5001	24V	

60 and 75 amp Contactors

Magnetically operated, used for switching motors up to 75 AFL or 90 A resistive on refrigeration and air conditioning equipment or noninductive heat loads.

ORDERING INFORMATION		
ORDER #	COIL	AMPS
DP3060B5009	120V	60
DP3060C5008	208/240V	
DP3060A5000	24V	
DP3075B1006	120V	70
DP3075C1005	208/240V	
DP3075A1007	24V	

DON'T FORGET THE OTHER ACCESSORIES:

DIN rail, snap trak, power strips, wiring duct, surge protectors, terminal blocks, cabinets and more.

NECC has all the accessories for you to build your panels or we can design, wire and fabricate the panel for you and create the corresponding wiring diagrams.
