

## Digital Electronic Gas Analyzers

Meet Bacharach's family of handheld digital toxic gas and oxygen analyzers. Now you can quickly measure and display levels of carbon monoxide (CO), oxides of nitrogen (NO<sub>x</sub>), sulfur dioxide (SO<sub>2</sub>) and oxygen (O<sub>2</sub>) more accurately, efficiently and economically than ever before.

### Description

Each gas analyzer has all the features and capabilities of meeting your testing requirements. State-of-the-art styling sets the Monoxor II, Nonoxor II, Dioxor II and Oxor II apart from other analyzers.

- Durable, impact resistant case that withstands fuels and other corrosive liquids, even in low temperatures.
- Detachable seven-inch, stainless steel probe and handle connected to a four-foot, flexible hose.
- Highly visible 1/2" digital LCD display with backlighting.
- In-line water trap for combustion applications.

### Applications

- Energy audit testing
- Furnace and boiler servicing or replacement
- Environmental Emission Management
- Analyzing Indoor Air Quality (IAQ)
- Spot checking continuous emission systems

ORDERING INFORMATION	
ORDER #	DESCRIPTION
19-8004	Monoxor II CO Analyzer
19-8005	Oxor II O <sub>2</sub> Analyzer
19-8006	Nonoxor II NO <sub>2</sub> Analyzer
19-8007	Dioxor II SO <sub>2</sub> Analyzer
24-1267	Soft Carrying Case
24-0498	Replacement CO Sensor
19-8001	Replacement NO <sub>2</sub> Sensor
19-8002	Replacement SO <sub>2</sub> Sensor
24-7070	Replacement O <sub>2</sub> Sensor
24-7059	Calibration Kit

*Money can't buy you happiness.  
But at least you can select your own kind of misery.*
