

MOD IV MOTOR ACCESSORIES

The complete flexible line of **Honeywell** Actuator Motors can be combined with plug-in and bolt-on accessories to perform a large variety of functions:

With the latest "Series 90" MOD IV actuators, you can:

Add end switches, transformers, resistor boards, auxiliary pots, change signal boards, reverse the stroke and adjust zero and span.

Plug-in Interface Modules

Converts Series 90 Mod IV Motors to Series 70 (electronic) control. Modules can select signal and stroke direction.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
Q7130A1006	4-7, 6-9, 10.5-13.5 Vdc
Q7230A1005	Adj. Zero & Span, 4-20mA, 2-10Vdc
Q7330A1004	W936 Control Interface
Q7630A1001	3-wire 14-17V with Min. Pos.

Valve Linkages

To connect **Honeywell** V5011 and V5013 valves to Mod IV actuators. Model numbers shown have non-adjustable stroke. Custom stroke cams available. Valve adaptors shown allow you to use Mod IV motors on competitive valves.

ORDERING INFORMATION				
ORDER #	FORCE	LIFT	BONNET	REPLACES
Q5001D1000	80, 160#	3/4"	1-3/8"	Q601J,K,L,M; Q618A1024,32
Q5001D1018	160, 320#			Q601J,K,Q; Q618A
Q5001D1026		1-1/2"	1-7/8"	Q601E, P

Add-on Internal Auxiliary Switch Kits

Can be easily mounted in Mod IV motors. Operated by internal motor cams.

ORDERING INFORMATION	
ORDER #	SWITCHES
220736A	1-SPDT
220736B	2-SPDT

Damper Linkage

Includes mounting bracket, (3) 1/2" damper arms, (4) ball joints, (1) motor crankarm.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
Q605D1069	Damper Linkage Kit

Plug-in Adaptor Boards

Mounts in wiring box for various functions.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
221508A	Resistor Board to control 1-6 motors by DIP switch
220741A	Screw Terminal Adaptor Kit
Q209F1001	150ohm Potentiometer Board
Q209F1019	300ohm Potentiometer Board

Add-on Internal Transformers

Converts 24V motors to other power inputs.

ORDERING INFORMATION	
ORDER #	DESCRIPTION
198162EA	120V
198162AA	120/208/240V
