ARE YOU REQUIRED BY OSHA OR LOCAL CODES TO REMOVE MERCURY DEVICES FROM YOUR BUILDING?

We have a complete assortment of non-mercury devices available to directly replace your mercury switch controls and thermometers with little or no wiring or mounting modifications.

Honeywell Digital Round Thermostat

The new non-mercury digital round thermostat is an ideal direct replacement for the classic **Honeywell** T87 Round® mercury switch thermostat.

Features:

- Easy to read backlit digital display
- No batteries needed
- Temperature setting permanently in memory during a power failure
- Selectable heating cycle rates
- Easily configurable with DIP switches
- Same dimensions as the old T87 stat
- Minimum compressor off time
- Larger cover plate available
- Built-in switching subbase on cooling model
