Honeywell VersaGuard Universal Thermostat Guards

Enclose and protect wall thermostats against tampering, damage and unauthorized adjustment of thermostat settings.

- Patented, double-wall construction provides extra measure of tamper-resistance.
- Constructed of opaque plastic wallplate, clear plastic ring base, guard cover, tumbler lock, two keys.
- Tamper-resistant lock; key cannot be removed without being in locked position.
- Mount vertically or horizontally.
- Vents in guard base allow airflow for optimum thermostat performance.
- TG510D, TG511D and TG512D models include brackets for mounting on exposed junction boxes.
