

Description

The FCP Non-Programmable and FCP 7-Day Programmable Fan Coil Unit (FCU) or Packaged Terminal Air Conditioner Unit (PTAC) Thermostats provide simple-to-use control of 2-pipe or 4-pipe FCU or PTAC. These thermostats provide on/off control, up to three speeds of fan control, and dry contact unoccupied or occupied control. Use the thermostats as stand-alone devices in commercial buildings, such as schools, offices, and hotels, and to provide access to parameters such as system mode, fan mode, and temperature setpoints.

The FCP Thermostats feature a quick setup menu, are prewired for fast installation, and are Johnson Controls® 10K ohm negative temperature coefficient (NTC) Type II and Type III remote sensor ready (order separately). You can equip the FCP Thermostats with a remote temperature sensor, remote pipe sensor, and a remote wired occupancy sensor to enable flexible options. Flexible options include 2-pipe FCU heat/cool switchover or pipe sensor for automatic switching. The large display with adjustable backlight makes it easy to optimize user preferences. In addition, both FCP Thermostat models include minimum and maximum temperature protection, key pad lockout, occupied and unoccupied modes.

The FCP Programmable Fan Coil or PTAC Thermostat without Fan (FCP-PA-701-NF) is a new FCP model designed for 2-pipe or 4-pipe FCU with independent fan control, or radiant type under floor heat-only applications that do not require a fan control output from the thermostat.

Table 1: FCP Thermostat UI callouts

| Feature | Description |
|---------|--|
| 1 | Schedule, available only on FCP-PA-701 |
| 2 | Time, available only on FCP-PA-701 |
| 3 | Room temperature |
| 4 | Temperature setpoint |
| 5 | Fan speed |
| 6 | Fan |
| 7 | Up |
| 8 | Down |
| 9 | Mode |
| 10 | Cool or heat indication |
| 11 | Day, available only on FCP-PA-701 |

Figure 3: FCP Thermostat no fan model (FCP-PA-701-NF) with dimensions, in. (mm)

Table 2: FCP Thermostat no fan model UI callouts

| Feature | Description |
|---------|----------------------|
| 1 | Schedule |
| 2 | Time |
| 3 | Room temperature |
| 4 | Temperature setpoint |
| 5 | Back |
| 6 | Up |
| 7 | Down |
| 8 | Mode |
| 9 | Cool or heat status |
| 10 | Day |

Features and benefits

- Compatible with 2-pipe and 4-pipe FCU with up to a 3-speed fan (except FCP-PA-701-NF), conventional PTAC, and heat pump PTAC with or without auxiliary heat
- Pre-installed lead wires for fast installation (except FCP-PA-701-NF)
- Pre-set installer and user configurations. Configure your thermostat easily with 20 pre-set installations
- Configurable normally open (N.O.)/normally closed (N.C.) contact to set the occupied or unoccupied mode
- Onboard and remote temperature sensor available
- White LED backlight with adjustable brightness for easy operation in the dark
- FCP-PA-701 features up to six programmable periods per day
- FCP-PA-701 features battery backup. RTC backup with a minimum backup time of 48 hours
- Temperature in °F or °C

Applications

The FCP Thermostat is compatible with most 24 VAC FCU or PTAC applications.

The following table shows the compatible configurations of the equipment:

Table 3: Applications

| Application | Model |
|---------------------------------|-----------------------|
| 2-pipe with up to a 3-speed fan | FCP-PA-701/FCP-NA-701 |

Table 5: FCP non-programmable and programmable FCU or PTAC Thermostats technical specifications

| Specification | Description |
|--------------------|---|
| Models | Non-programmable: FCP-NA-701-N, FCP-NA-701-B Programmable: FCP-PA-701-N, FCP-PA-701-B, FCP-PA-701-NF |
| Power requirements | 20 VAC to 30 VAC, 60 Hz, max. 3 A (3 VA at 24 V nominal) |
| Output rating | Valve and fan outputs 1 A maximum per each relay channel (Max. relays ON combination: 3 relays), 20 VAC to 30 VAC |

Table 3: Applications

| Application | Model |
|---|-----------------------|
| 4-pipe with up to a 3-speed fan | FCP-PA-701/FCP-NA-701 |
| Conventional PTAC | FCP-PA-701/FCP-NA-701 |
| Heat pump PTAC with or without auxiliary heat | FCP-PA-701/FCP-NA-701 |
| 2-pipe without fan | FCP-PA-701-NF |
| 4-pipe without fan | FCP-PA-701-NF |
| Radiant floor heating | FCP-PA-701-NF |

Ordering information

Table 4: FCP digital room thermostat for fan coil or PTAC selection chart

| Product code number | Non-programmable/programmable | Backup battery for RTC | Johnson Controls logo | Color |
|---------------------|-------------------------------|------------------------|-----------------------|-------|
| FCP-NA-701-N | Non-programmable | No | No | White |
| FCP-NA-701-B | Non-programmable | No | Yes | White |
| FCP-PA-701-N | 7-day programmable | Yes | No | White |
| FCP-PA-701-B | 7-day programmable | Yes | Yes | White |
| FCP-PA-701-NF | 7-day programmable | Yes | Yes | White |

The FCP Thermostat ships from the factory with a quick start guide, four mounting screws, one lock screw, seven pre-installed terminal wires, and one wire label. The FCP-PA-701 also includes one coin cell battery.

- Note:** The FCP-PA-701-NF FCP guide, *Programmable Fan Coil or PTAC Thermostat without Fan Quick Start Guide (12013797)*, does not ship with the product but is available on [Knowledge Exchange](#).

Technical specifications

Table 5: FCP non-programmable and programmable FCU or PTAC Thermostats technical specifications

| Specification | | Description |
|--------------------------------|--|--|
| Analog inputs | Remote sensor | 10K ohm at 77°F (25°C) NTC sensor |
| | Pipe sensor | 10K ohm at 77°F (25°C) NTC sensor |
| | Set back | NC/NO dry contact switch |
| Local temperature sensor type | | NTC temperature sensor, accurate to ±1°F (±0.6°C) at 77°F (25°C) |
| Remote temperature sensor type | | NTC temperature sensor, accurate to ±2°F (±1.2°C) at 70°F (21°C) |
| Wire size | | 18 AWG (100 ft [30.5 m] maximum) to 24 AWG (36 ft [11 m] maximum) |
| Temperature adjustment range | Heat mode | 45°F to 90°F (7°C to 32°C) |
| | Cool mode | 60°F to 95°F (15°C to 35°C) |
| Accuracy | Local temperature sensor | ±1°F (±0.6°C) |
| | Remote temperature sensor | ±2°F (±1.2°C) at 70°F (21°C) |
| | Remote pipe sensor | ±5°F (±3.0°C) |
| Deadband | | 2°F to 5°F (1°C to 3°C) |
| Ambient conditions | Operating | 14°F to 122°F (-10°C to 50°C); 5% RH to 90% RH, noncondensing |
| | Storage | -4°F to 140°F (-20°C to 60°C); 5% RH to 90% RH, noncondensing |
| Disconnection means | | Type 1B |
| Pollution degree | | 2 |
| Rated impulse voltage | | 330 V |
| Automatic Action | | 100,000 cycles |
| Ratings for supply and loading | | 20 VAC to 30 VAC |
| Dimensions H x W x D | | 3.27 in. x 3.94 in. x 0.98 in. (83 mm x 100 mm x 25 mm) |
| Shipping weight | | Product with packing and accessories: 10.1 oz (285 g) Thermostat only: 4.9 oz (138 g) Trim plate: 1.2 oz (33 g) |
| Compliance |  | ETL/cETL Listed, Mexico NOM CONFORMS TO UL STD. 60730-1 & 60730-2-9 CERTIFIED TO CSA STD. E60730-1 & E60730-2-9 CERTIFIED TO Mexico NOM-001-SCFI-2018 and NOM-024-SCFI-2013 |

The performance specifications are nominal and conform to acceptable industry standards. For application at conditions beyond these specifications, consult the local Johnson Controls office. Johnson Controls shall not be liable for damages resulting from misapplication or misuse of its products.

Contact information

Contact your local branch office:
